PROFILE

Architect with 8+ years of experience in healthcare facilities, residential projects, and sustainable design. Experienced delivering 100,000+ sqft projects from concept to construction across Chile. Proficient in Revit, ArchiCad, SketchUp, and 3D visualization tools. Chilean citizen eligible for H-1B1 visa. Based in San Francisco, open to relocation.

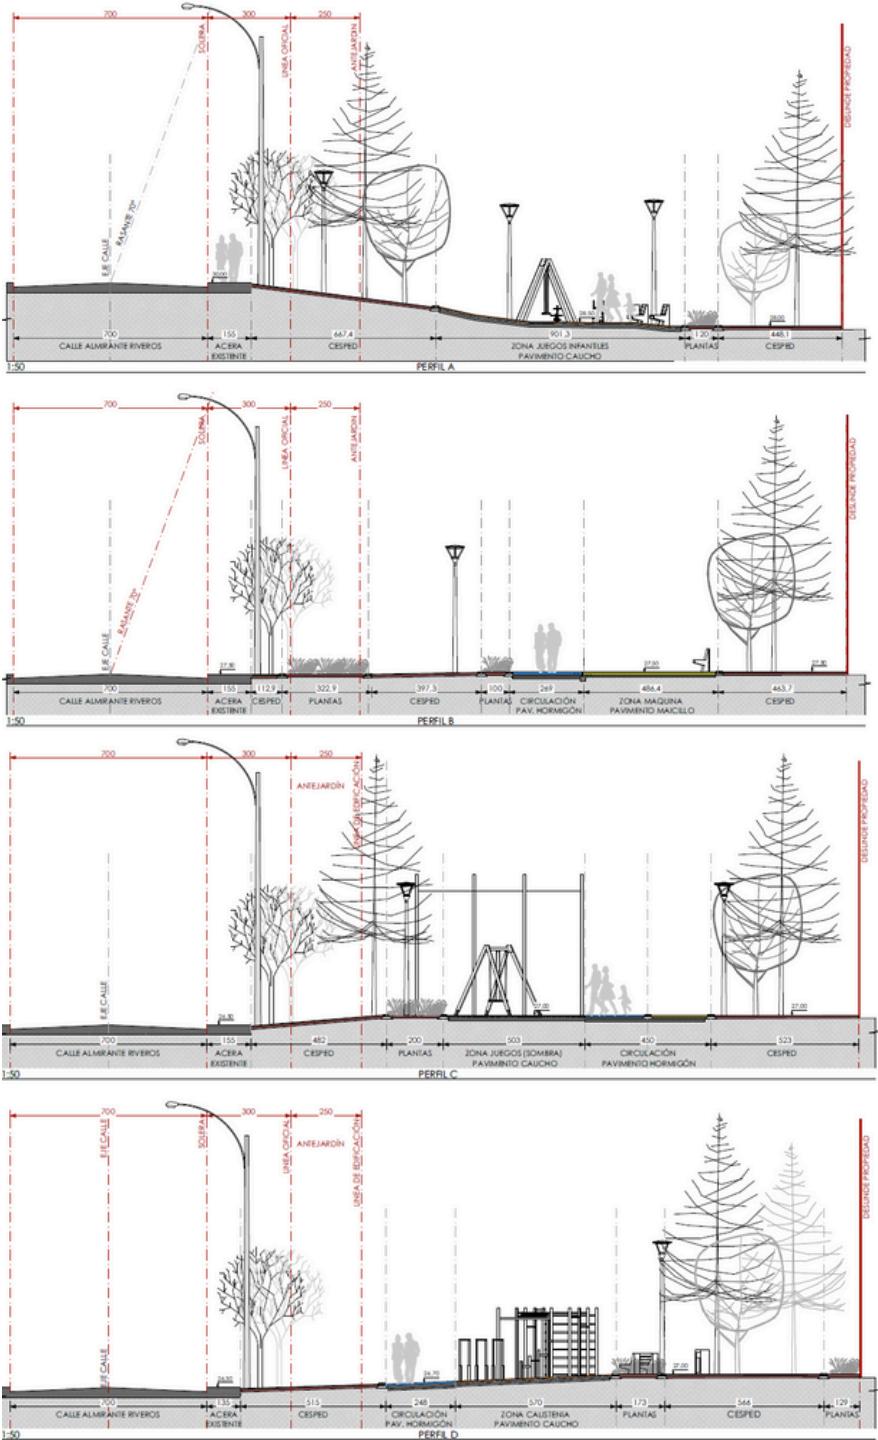

PARQUE ANIBAL PINTO

Concepción, Chile | 52,000 sqft | 2023-2024 | Lead Architect

Redesign of a 52,000 sqft public park in central Concepción, serving over 2,000 residents. As lead architect, I facilitated community workshops to integrate local needs and coordinated with landscape architects to deliver a flexible, user-centered space.

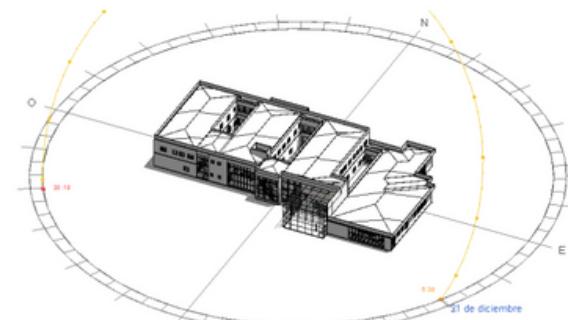

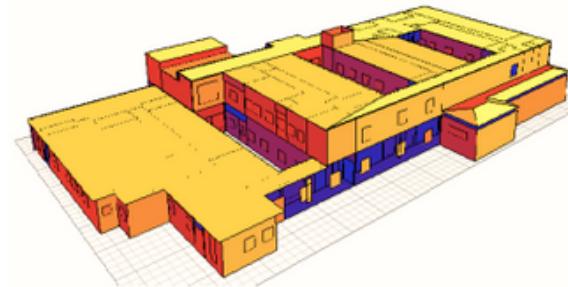

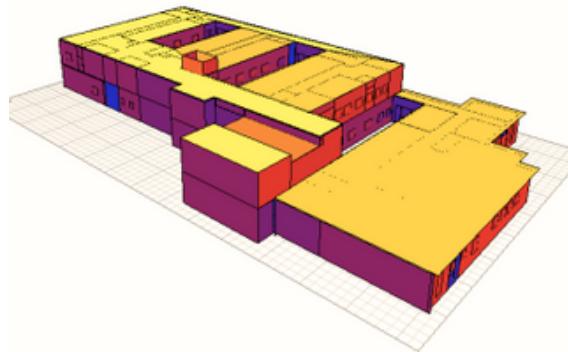

PARQUE ANIBAL PINTO

“CESFAM LOTA ALTO” PRIMARY HEALTHCARE CENTER

Lota, Chile | 26,300 sqft | 2019-2023 | Project Lead: Julian Magnani - Agency: Concepción Health Service

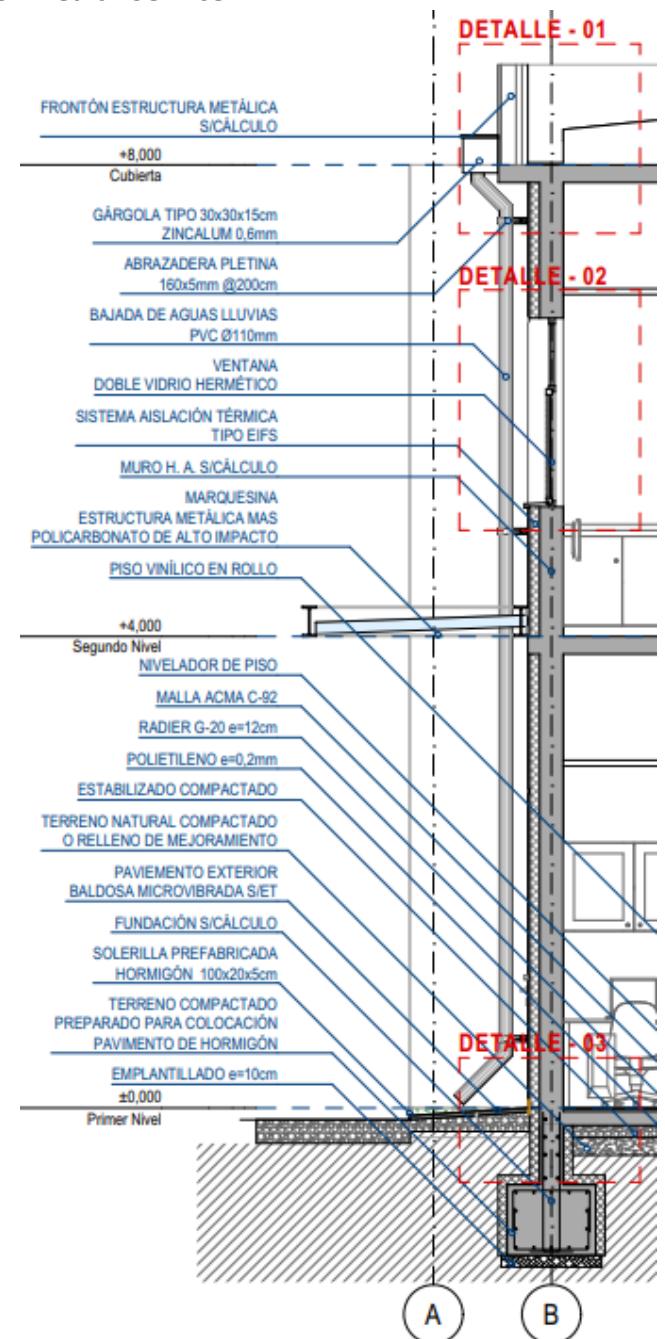

26,300 sqft primary healthcare center serving 30,000+ annual users. Managed schematic design, energy efficiency analysis, cost estimation, permitting, and construction oversight.

“CESFAM CHIGUAYANTE” PRIMARY HEALTHCARE CENTER

Chiguayante, Chile | 25,800 sqft | 2022-2023 | Project Lead: Julian Magnani - Agency: Concepción Health Service

25,800 sqft primary healthcare center serving 30,000+ annual users. Managed schematic design, energy efficiency analysis, municipal permitting, and construction oversight.

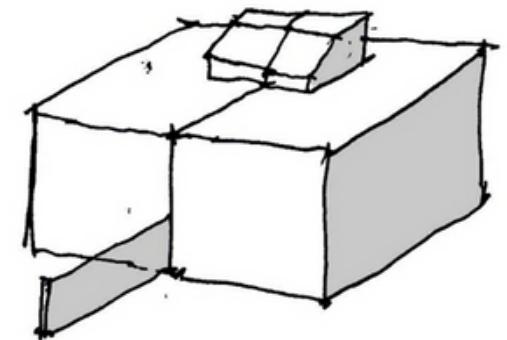

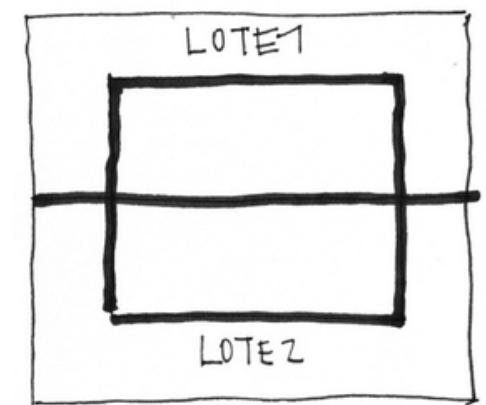

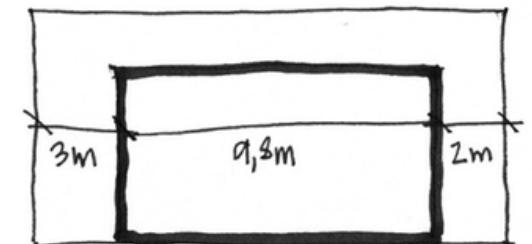

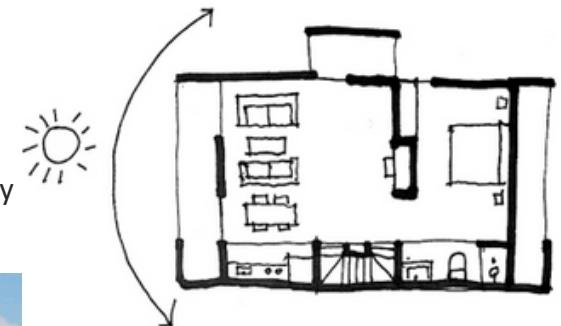

CASA S3 | SUSTAINABLE SOCIAL HOUSING

1st Place, Construye Solar Competition (National) | Santiago, Chile | 2017

Thesis Project | Team Lead & Coordinator

Award-winning social housing prototype achieving 1st Place in national competition. Led interdisciplinary team from design through construction and national exhibition.

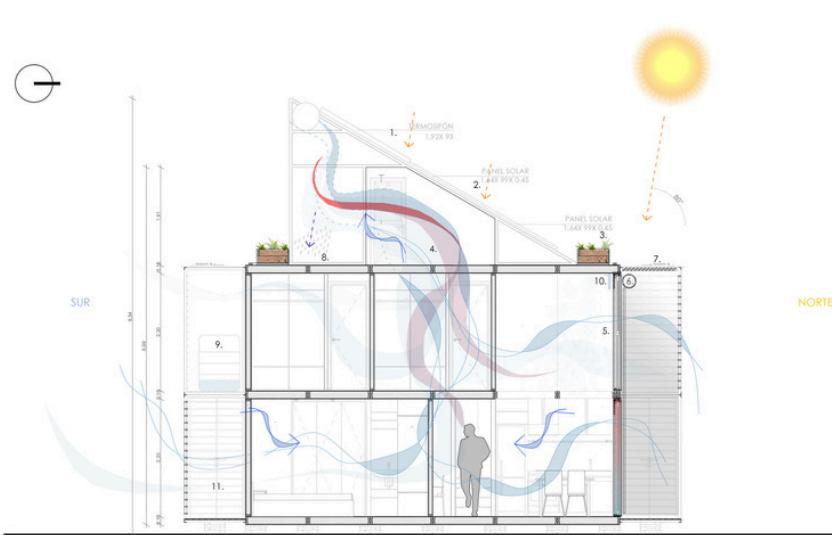

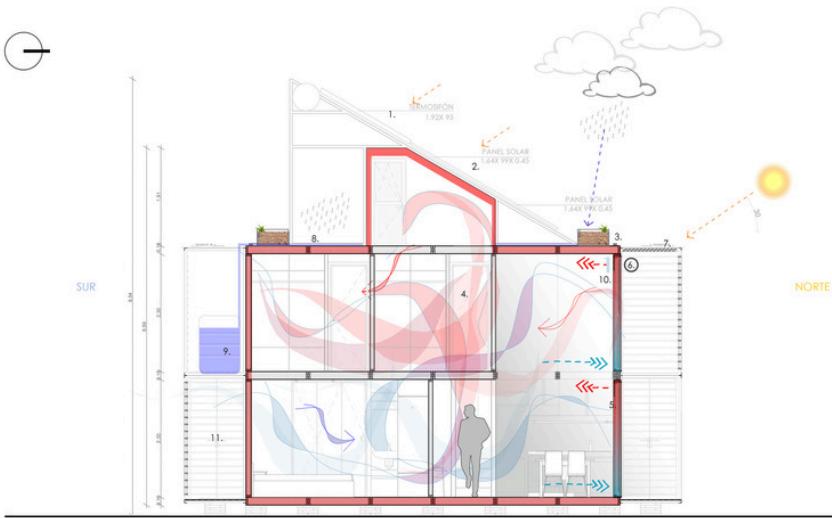

CASA S3 | SUSTAINABLE SOCIAL HOUSING

1st Place, Construye Solar Competition (National) | Santiago, Chile | 2017

Team: Javi Santibañez, Ceci Silva, Caro Yañez.

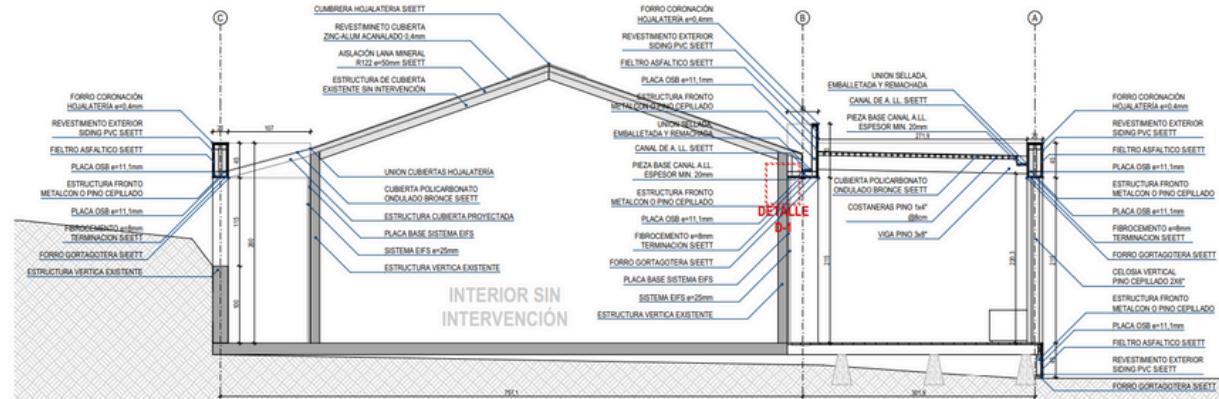

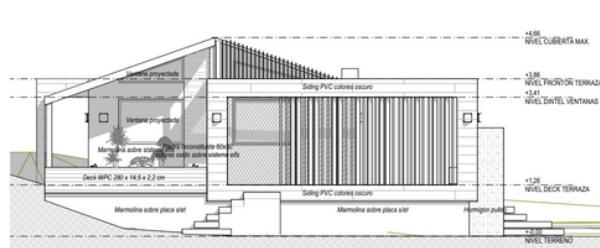

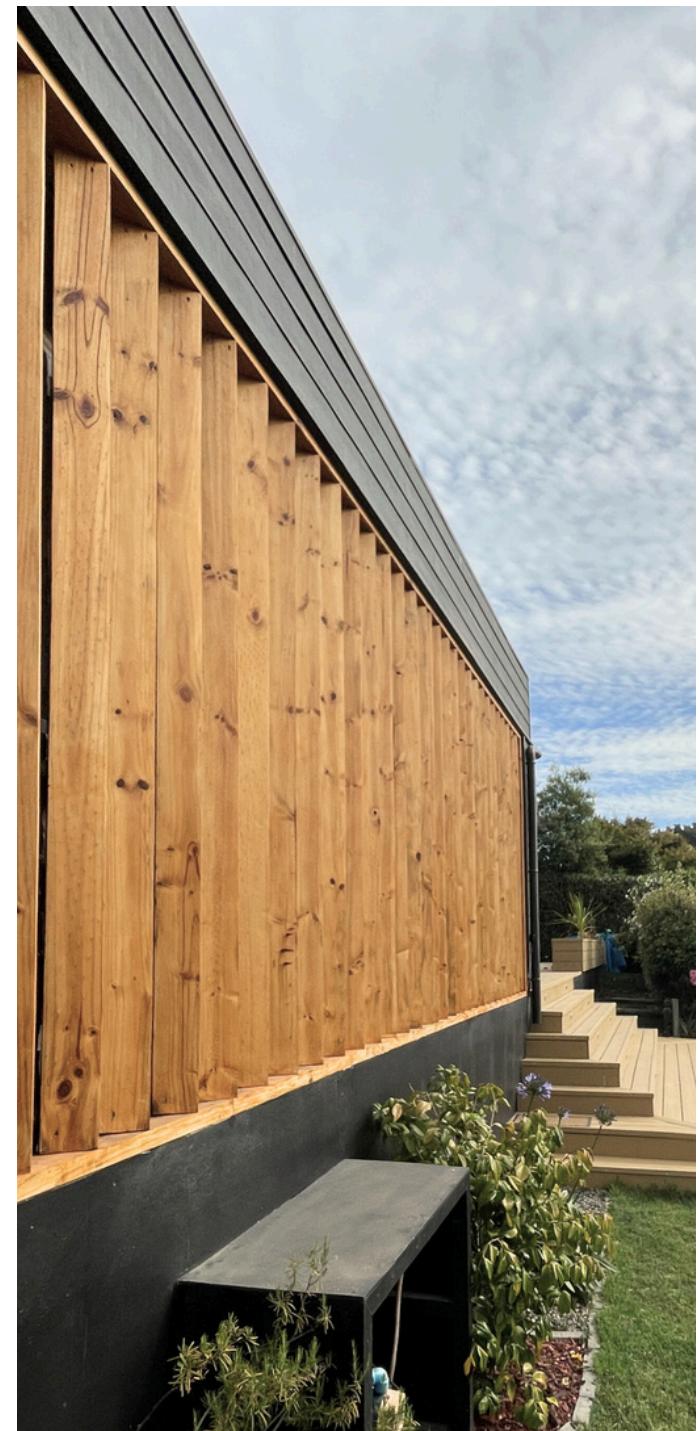

Two-story semi-detached design for typical Chilean social housing lot (1,237 sqft). Shared party wall strategy maximizes land efficiency and thermal performance, demonstrating scalable solution for affordable, energy-efficient housing.

BEACH HOUSE FAÇADE RENOVATION

Pingueral, Chile | 2023 | Lead Architect & Construction Coordinator

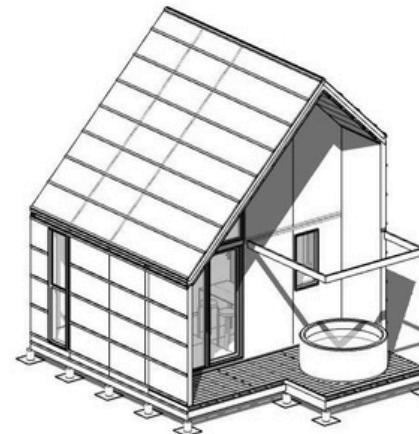

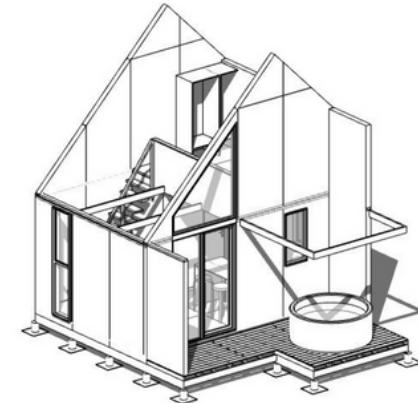

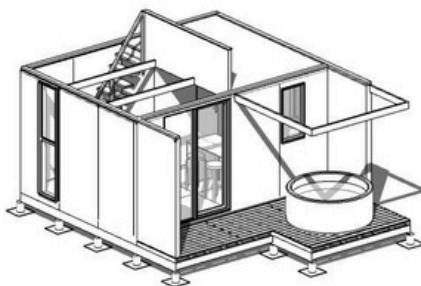

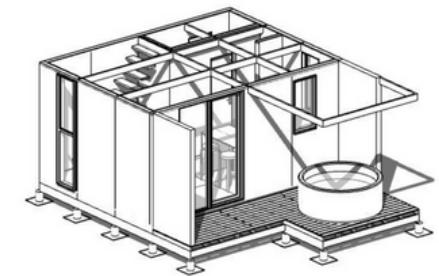

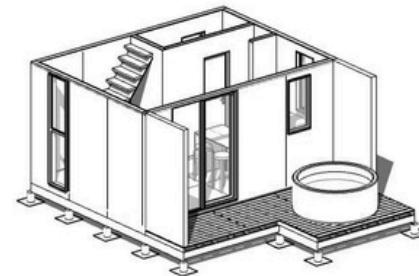

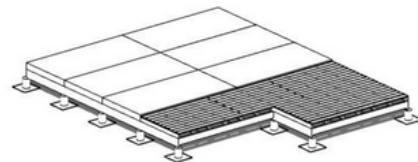

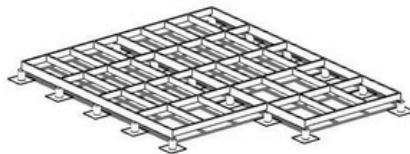

Facade renovation for oceanfront residence in extreme coastal conditions. Led design and construction of stepped terraces, protective lattice system, and salt-resistant materials adapted to ocean exposure.

SIP PANEL CABIN

Experimental Housing Prototype | 323 sqft

Compact prefabricated cabin designed for extreme mountain conditions. Modular SIP panel system enables rapid assembly while providing year-round thermal performance in harsh climates.
